Full Stack Programming Projects

Kick.It | Website: <https://kick-it-v1.netlify.app>

Aug 2023

Skills: JavaScript, React, HTML/CSS, PostgreSQL, SQL, Express.js, Node.js, Rest API, Socket.io

Synopsis: The app enables users to create and RSVP for events, while also allowing real-time messaging between users

- Led the back end development team, overseeing the successful implementation of project milestones
- Optimized the database using PostgreSQL and ensuring efficient data storage, retrieval, and management
- Spearheaded the development of key features, including user registration, event creation/hosting, RSVP functionality, real-time chat capabilities, and friend request system

Collection Vault | Github: <https://github.com/TonyH98/e-commerce-frontend>

Aug 2023

Skills: JavaScript, React, HTML/CSS, PostgreSQL, SQL, Express.js, Node.js, Rest API, Stripe

Synopsis: The app specializes in selling books and comics. Users can make secure purchases and write reviews

- Executed front end and back end development to deliver a fully functional and polished application
- Demonstrated exceptional UI/UX design skills by creating an intuitive and visually appealing app interface for both mobile and desktop views, resulting in positive user feedback and increased user engagement
- Implemented Stripe API for seamless secure payment process to ensure quality user experience

Snack-A-Log | Github: <https://github.com/TonyH98/project-snack-a-log-frontend>

Jan 2023

Skills: JavaScript, React, HTML/CSS, PostgreSQL, Node.js

Synopsis: The app allows users to catalog their favorite snacks while providing health ratings for each item

- Designed the database using PostgreSQL to store favorite snacks and created middleware validation system

Work Experience

Barcelona Wine Bar

West Hartford, CT

Busser

Sep 2020 – May 2021

- Provided excellent customer service by bussing on average 20 tables per day, organizing drinks, and ensuring the cleanliness of the restaurant, resulting in positive customer and management feedback

Charter Oak Law Group

Bloomfield, CT

Legal Assistant

Jan 2020 – Mar 2020

- Assisted with administrative and legal duties, such as researching medical terms, organizing documents, inputting financial data into Excel, and executing legal wills

Environment America

Hartford, CT

Intern

May 2019 – Jul 2019

- Advocated the banning of polystyrene material by organizing grassroots outreach in Hartford County
- Managed 100+ signed petitions and \$2,000+ of donations which contributed to the passing of H.B. No. 6503 that banned single-use styrofoam containers starting in July 2023 in CT

Education

Pursuit

New York, NY

Full-Stack Development Fellowship

May 2022 – Jun 2023

University of Connecticut

Storrs, CT

Political Science and Communication

Sep 2016 – Dec 2019
